Bubble Chamber Group Meetings

As reported at our preliminary discussions on October 29th the following series of meetings will be started to progress all bubble chamber work at the Rutherford Laboratory, except that work which is still a university responsibility and the high energy physics programme.

1. Progress Meetings on Bubble Chamber Installations
at the Rutherford Laboratory

Members: Dr. D. B. Thomas
Dr. R. Newport
Dr. P. Williams
Mr. I. K. Daly
Mr. M. Dykes
Mr. J. H. Foster
Mr. P. Gottfeldt
Mr. T. D. K. Perry

To attend at required:

Representatives of Dr. Pickup's Group
Mr. Lawson's Group
Mr. Simmonds' Group

and the following bubble chamber staff:

Mr. A. W. Eastwood
Mr. B. Fish
Mr. E. Fitzharris
Mr. J. F. Pinchin
Mr. R. L. Roberts

Purpose of Meetings

1. To programme the present work on bubble chambers at the Rutherford Laboratory which is our direct responsibility and not supervised by university staff.
2. To review and progress this work.
3. To plan future installations through design studies.

Frequency

Initially every two weeks then perhaps every month.

2.

Progress Meetings on Bubble Chamber Operation
at the Rutherford Laboratory

Members: Dr. D. B. Thomas
Dr. R. Newport
Dr. P. Williams
Mr. J. H. Foster
Mr. J. F. Pinchin
Mr. A. Bishop
Mr. A. Davis
Mr. D. Sayers

Later when the 1.5m chamber is nearing completion additional members will be required to attend.

Purpose of meetings

To plan the Rutherford Laboratory work in operating equipment for all bubble chambers.

To organise maintenance and modifications to operating plant.

Frequency

Every two weeks or to suit NIMROD cycle.

The normal time for the meetings will be 11.0 a.m. Wednesday morning alternate weeks for each meeting starting November 17th with the Operations Meeting.
