RUTHERFORD LABORATORY NOTICE NO.

Vehicles Identity Labels

Special car labels are to be issued to all Rutherford Laboratory staff, attached staff, and visitors who regularly bring their cars to the Laboratory. A space is provided on the label for the car registration number to be inserted.

The issue of these labels is in effect an extension of the personal identity card arrangement to ensure that cars displaying the label will be able to pass unhindered in and out of the Laboratory except in very unusual circumstances. The display of these labels is not obligatory but drivers of vehicles not displaying them will be asked to stop and establish their identity.

The labels will be issued by Local Administration Officers to car owners. Staff who acquire a car after the initial issue should apply to their Local Administration Officer for a label.

J. M. Valentine
Deputy Secretary

Rutherford Laboratory.
