

RUTHERFORD LABORATORY

NOTICE 3/70

CHANGES IN LABORATORY ORGANIZATION

The following changes in organization will come into effect on 11 May 1970:-

1. A new Department of Engineering Science is to be formed in the Engineering Division under Mr M Snowden. Emphasis will be given by this Department to the speedy introduction into the Laboratory of technological advances in engineering and applied science. Mr Snowden will further have a special responsibility for providing from within the Engineering Division the resources necessary for the work of the Applied Physics Division and for the close integration of physics and engineering required in this work. Mr Snowden will report directly to the Chief Engineer, Mr P Bowles. The engineering groups under Mr A G Ashburn and Mr R N Walker, which are at present supporting the work of the Applied Physics Division, will be part of the new Department of Engineering Science. Other staff who are to be transferred to this new Department will be notified as the detailed arrangements are completed.
2. As Leader of the High Field Bubble Chamber Project, Dr D B Thomas will now report directly to Dr L C W Hobbis, Head of the Applied Physics Division.
3. The Bubble Chamber Operations Group under Dr P Williams is transferred to the Nimrod Division. Dr Williams will report directly to Mr D A Gray, Head of the Nimrod Division.
4. Mr Snowden will continue to report directly to Dr Hobbis for the work of the Radiation Protection Group.
